

## **REQUEST FOR INFORMATION: Revelstoke Forum Future Planning**

The Revelstoke Forum is nearing the end of its lifecycle. We are embarking on a public engagement session to start planning for the future. I am hoping to share examples of other recent arena renovations or replacements with our community. Options we would like to put forward to the community include:

- Replace roof and facility upgrades
- New spectator arena facility (1000 + seats)
- New players arena (seating under 500)
- Construct multiplex, including ice arena.

If you have recently (in the last 5 years) constructed a new facility or have undergone significant renovations (i.e. dressing rooms, accessibility, lobby upgrades concession upgrades) I would love to hear about your project.

Looking for:

1. Recent images / concepts /floorplan for a new build or substantial renovation.
2. High level amenities included in work (seats, accessibility etc.)
3. Estimated (or actual costs if built) costs.
4. Year it was completed
5. Links to any website they might have

Please email information to Laurie Donato at [ldonato@revelstoke.ca](mailto:ldonato@revelstoke.ca).

Thank You
