CONSIDERATIONS

➔ **Deciding to write an F2F article is not a sales pitch.**

Writing an F2F article is not an opportunity for a sales pitch; it's about providing real, practical value to our readers. The focus must be on delivering educational content that helps them in their everyday roles.

EXAMPLE

SPORTS FIELD TURF MANUFACTURER

- **Instead of:** Promoting a specific type of artificial turf.
- **Focus on:** The benefits of different types of turf and grass, maintenance tips for keeping fields in top condition, and how to choose the right surface for various sports and climates.

➔ **Authors may need to revise their article to meet our criteria.**

When an author submits an article for consideration in our F2F magazine, it is important to note that the editorial team carefully reviews each submission to ensure it aligns with our publication's standards and objectives. While we value and respect the unique voice and perspective of each author, we may ask for revisions to help the article better fit within our established guidelines.

➔ **Your article might not be selected for publication in the current issue and may be stored for consideration in future editions.**

Please note that while we greatly appreciate your submission, there is a possibility that your article may not be selected for publication in the current issue. However, rest assured that it will be stored and given full consideration for inclusion in future editions. We value your contribution and look forward to potentially featuring your work in our magazine at a later date.
